**CLINIC  
CHAMPION**

# REPAIR, REOPEN, RESTORE!

In the Oecusse region of Timor-Leste, a Health Clinic sits abandoned.

People hurt by leprosy have nowhere to turn for treatment. Or to learn self-care. Or to have their wounds cleaned and bandaged.

Now our Leprosy Mission family has an exciting opportunity: to repair and reopen the Health Clinic, and restore healing for people in Oecusse.

With your **Clinic Champion** gift today to renovate the Health Clinic:

- ♥ You'll offer **complete leprosy care** side-by-side with health services for the whole community (*a first for Timor-Leste*)
- ♥ Your newly-equipped laboratory will be able to provide **fast, accurate diagnosis of leprosy** and other common conditions (*rapid diagnosis and treatment stops the spread and prevents permanent disability*)
- ♥ You'll bring **care that lasts!** (*Working closely with the Leprosy Mission team in Timor-Leste, local authorities will take over the ongoing running and staffing of the Clinic*)

And, perhaps most importantly, you'll show unconditional love and kindness to people hurt by leprosy.

Please join us **this World Leprosy Day** as a **Clinic Champion**. Together, we can bring back health and healing for our island neighbours in Timor-Leste.

**THIS TREATMENT ROOM AT THE CLINIC NEEDS A BIT OF TLC – BUT NOTHING YOU CAN'T FIX AS A CLINIC CHAMPION!**

# WHY YOU'RE NEEDED

For many years, Maria's worked hard to support herself by chopping firewood and growing veggies.

But leprosy has damaged the nerves in her hands and feet. It's now hard for her to balance and grip an axe.

If she steps on something sharp, she doesn't know, leading to a high risk of infection.

**And if Maria can't work, she can't eat. She needs her hands and feet or she will starve!**

The only person Maria has in the world for company is her brother, who also has leprosy. They share the same fear – that they will work for as long as their bodies allow, and then slowly die, unseen and alone.

This loneliness, this despair, this terrible pain... it's why your compassion and kindness is so desperately needed as a **CLINIC CHAMPION** today.

THIS LONELINESS,  
THIS DESPAIR,  
THIS TERRIBLE  
PAIN...  
IT'S WHY YOUR  
COMPASSION  
AND KINDNESS IS  
SO DESPERATELY  
NEEDED AS A  
**CLINIC CHAMPION**  
TODAY.

The complete numbness in her feet makes it hard to balance. With your gift today you'll bring leprosy diagnosis and treatment close to people like Maria... to stop leprosy in its tracks, and prevent permanent disability.

# YOUR LOVE AND CARE GO FURTHER

Along with leprosy, people in this region suffer many other health problems. Children are malnourished. Diarrhoea and other water-borne diseases are common. Mums and babies often die in childbirth.
